

Pharmacy Accessory Label Printer

Labeling Solutions for Ancillary Packaging

- Quickly and efficiently prints accurate bar coded labels on ampoules, vials and syringes.
- Utilizes MPI's Pak-EDGE™ Barcode Labeling Software.
- Many different bar code formats available.
- User-maintained product master file allows for quick recall of standard labels.
- Security options allow control of data files and labeling options.
- Small footprint.
- Low maintenance.
- Several different sizes of freezer grade labels available.
- Two different models available:
 - Direct Thermal Label Printer (DTLP)
 - Thermal Transfer Label Printer (TTLP)

MPI's **Thermal Transfer Label Printer (TTLP)** offers a clear stem folded flag label solution with a double-sided print area of 1 ½" x 1" that allows both a bar code and 6-lines of text. A straight flag label solution is also available with a single-sided print area of 2" x ¾". The label is easily removed from its backing and applied to the product in one swift motion.

MPI's **Direct Thermal Label Printer (DTLP)** features six (6) different size labels, including a flag label, on a white background to provide you with the solution to meet all your labeling needs. Label sizes include:

- 1" x 3"
- ½" x 3"
- ¼" x 1"
- ½" x 1½"
- ½" x 1½"
- ¼" x 1¼"
- 1½" x 1" Flag – Folded, Straight Flag or Color Flag (Red, Yellow, Orange) Available
